Section 3: Please provide a justification for change. Please use this section to explain your reasons for changing the authorship of your manuscript, e.g. what necessitated the change in authorship? Please refer to the (journal) policy pages for more information about authorship. Please explain why omitted authors were not originally included and/or why authors were removed on the submitted manuscript.

The clinician who was originally overseeing the clinical aspects of this study (Dr. Christopher Francois) had moved to a different institution (Mayo Clinic) in June 2020, immediately after the first submission of this manuscript. Some of the reviewer comments requested additional information to improve and clarify certain aspects of the study, which we agreed were appropriate. We thus added a second clinician (Dr. Jitka Starekova) who currently practices at UW-Madison, to help with carefully reviewing medical history and patient records, as well as provide additional oversight into patient categorization. She compiled an extensive list of patient demographics, clinical history, presenting symptoms, diagnostic imaging findings, procedures performed, and follow-up notes for all 21 patients suspected of CMI. This led to the generation of 3 new tables (Tables 1-3) which address the reviewer comments and greatly strengthen this study. We feel, because of her work in providing us with the necessary patient information and clinical oversight in the resubmission process, that it is fully justified to add her as third author.

Section 4: Proposed new authorship. Please provide your new authorship list in the order you would like it to appear on the manuscript. Please indicate the corresponding author by adding (CA) behind the name. If the corresponding author has changed, please indicate the reason under section 3.

	First name(s)	Family name (this name will appear in full on the final publication and will be searchable in various abstract and indexing databases)

2 nd author	Christopher	Francois
